

# Reporting under the Sustainable Development Goal (SDG) indicator 6.5.2 – Hungarian experience

Péter Kovács, Ministry of Interior

15th meeting of the Working Group on  
Monitoring and Assessment (Geneva, 6  
December 2019)

# Section II, questions 1 and 2 of the reporting template

- Challenge: „II. Questions for **each transboundary basin, river, lake or aquifer**” v. „Questions 2 and 3 to be completed for **each bilateral or multilateral agreement**”
- 7 neighboring country, 7 working transboundary commission, 1 basin agreement
- 1 basin, 4 sub basin, 24 sub-sub basin
- Bilateral agreements covers and overlaps
- Territorial and sectoral scope different

## Preparation for the reporting

Hungary's report was structured into:

- one part relating to the Danube Basin (100% coverage), based on the 1994 Convention on Co-operation for the Protection and Sustainable Use of the River Danube (Sofia Convention)
- seven parts that covered each bilateral transboundary commission that Hungary has with its neighbors.

# Coordination

## National coordination:

- one day workshop with the participation of the secretaries of each transboundary water commission (joint interpretation of the questions)
- joint filling in the templates for each transboundary relations

## Bilateral coordination: objective - harmonization

- personal meeting back to back to the regular meetings of the commissions
- e-mail correspondence with their partners.

## ICPDR coordination

- template was sent for information – no overall coordination took place

# Lessons

- Differences related to the understanding of the questions, the national responses to each question were not identical.
- Some cases, Hungary's original response was revised as a result of the discussions with its neighbors.
- The exercise was therefore helpful in understanding where similarities and differences existed between the countries on a particular transboundary water issues
- Joint bodies can serve as a platform for exchange and cooperation on reporting
- 2nd reporting exercise planned on a similar way.

The background features a white central area with blue wavy, layered patterns at the top and bottom. The waves are composed of various shades of blue, from light to dark, creating a sense of movement and depth.

**Thank you for your kind  
attention!**
