(i) To encourage the subsidiary bodies of ESCWA to give special attention to the conditions of the Palestinian people.

29. The secretariat received the following information from two member States on the implementation of the resolution:

Iraq

30. Iraq supports the statement by the Arab Group, the Organization of Islamic Cooperation and the Non-Aligned Movement and reaffirms its complete and genuine solidarity with the Palestinian people and other Arab populations under Israeli occupation in the occupied Syrian Golan and Lebanese territories. Iraq commends the resilience of the Palestinian people and its commitment to its legitimate rights, including establishing an independent State with Jerusalem as its capital city. Iraq condemns the flagrant violations committed by the occupying forces, including arbitrary detention, land clearing, property confiscation, house demolition and the use of excessive force against civilians.

31. Discrimination, blockade and systematic killing policies breach the most basic human rights principles. Palestinians in the Occupied Palestinian Territory lack the minimal necessities for a free and decent life and their great suffering unfolds before our eyes on a daily basis as a result of the policies of the Israeli occupying forces. Settlement-building and land-seizure policies in the West Bank, the unjust blockade and the gross violations suffered by Palestinians in the Gaza Strip are flagrant breaches of international humanitarian law and human rights law.

32. Iraq affirms the importance of agenda item 7 of the Human Rights Council on the human rights situation in Palestine and other occupied Arab territories, given that it maintains the Council’s focus on the Palestinian Cause and highlights the practices of the occupying State and its human rights violations.

United Arab Emirates

33. The United Arab Emirates has played a key role towards resolving the Palestinian Cause by making efforts with stakeholders to reach a settlement on the issue and enhance peace in the region, through meetings undertaken by Emirati officials with their counterparts at international events.

34. The United Arab Emirates has participated in the work of the Arab Peace Initiative Committee; several meetings were held to consult with the United States Administration on the aspects and dimensions of the stalled peace process and to present the Arab position on the international methodology and its mechanisms in resolving the Palestinian cause and the Arab-Israeli conflict.

35. The United Arab Emirates supports the rights of the Palestinian people to end the Israeli occupation and establish an independent and sovereign State with East Jerusalem as its capital, in accordance with international resolutions, the Arab Peace Initiative and the principle of land for peace.
36. The United Arab Emirates supports the efforts of the State of Palestine to gain membership of specialized international agencies and accede to international treaties and protocols.

37. The United Arab Emirates deplores the continued aggressive practices of the Israeli forces in the Palestinian Territory, urges Israel to halt its settlement activities in the Palestinian Territory and requests the international community to work on empowering the Palestinian people to achieve its rights and establish a State with East Jerusalem as its capital.

38. The United Arab Emirates reaffirms its commitments to providing support for and participating in rebuilding Gaza and supporting the Palestinian people by garnering support, meeting needs and complying with the Middle East Peace Initiative; the United Arab Emirates donated US$200 million at the Cairo International Conference on Palestine: Reconstructing Gaza, which was held on 12 October 2014.

39. The United Arab Emirates has participated in forming a committee to monitor and follow up on the implementation of the Palestinian National Accord.

40. The United Arab Emirates has fulfilled all its financial obligations in support of the Palestinian Authority.
