Why does the UK give aid?

How much?

- UK as an international player and leader - right thing to do – Morally, Socially
- The smart thing to do - in our interest, open economy and society.
- In FY 2013–14, DFID’s total expenditure was £10,1 million (up from £7,9 million in 2012–13). 1.1% of public spending
- Achieved the government’s target of spending 0.7% of gross national income (GNI) as ODA in 2013. First G7 nation to deliver on the target.
- Enshrined in law on 9th March 2015 - International Development (ODA Target) Bill, guarantees the UK's commitment to overseas aid
- Greater focus on results-based aid, accountability and transparency
