Regional Workshop on:

“Developing a Regional Renewable Energy Investment Pipeline”
13 June 2017, Astana - Kazakhstan

Overview of the UN DA Project on

“Promoting RE Investments for CCM & SD”
And Expected Outcomes from the Workshop

Mongi Bida, ESCWA

Viktor Badaker, UNECE
UN Development Account Project

Promoting renewable energy investments for climate change mitigation and sustainable development (2015-2017)

- Implemented by ESCWA (lead agency) and UNECE

Objective

Capacity building for development of RE investment projects.
Assist UN ESCWA & UN ECE Member States to strengthen capacities in attracting investments in RE projects in the context of climate change mitigation and sustainable development.
UN Development Account Project

Promoting renewable energy investments for climate change mitigation and sustainable development (2015-2017)

Expected accomplishments

• Improved capacity of government officials/ national financial institutions / national energy experts / project developers / to develop RE investment projects in private and public sectors

• Improved capacity for governments to adopt policies & measures to improve opportunities for banks & commercial companies to invest in RE projects through the development of new financing mechanisms
UN Development Account Project

Promoting renewable energy investments for climate change mitigation and sustainable development (2015-2017)

Main activities:

a) Technical assistance to national officials & experts: 2 regional trainings in “RE project development, finance and business planning” (Yerevan-Armenia, 2015 / Rabat-Morocco, 2016) + guidebook for project developers prepared by ESCWA

b) Individual technical assistance to project developers in preparing bankable project documents: Investment project pipeline (Activity in progress in both regions)

c) Review of project pipeline & knowledge on RE investment projects (regulatory & policy requirements / technical aspects) for attracting and implementing investments (foreign/national capital): A joint regional workshop in Astana, Kazakhstan, Jun 2017

d) Case studies on RE policy reforms: 4 case studies in each region (Jordan, Lebanon, Morocco & UAE / Georgia, Kazakhstan, Serbia & Ukraine): Work being finalized, including synthesis report of all case studies
UN Development Account Project

Promoting renewable energy investments for climate change mitigation and sustainable development (2015-2017)

Main activities (continued):

d) Capacity strengthening of national & local policymakers in promoting RE investments: A joint regional seminars on RE policy reforms (held in Baku, Azerbaijan, October 2016) + dissemination of case studies’ reports

e) Online platform for knowledge sharing, information & compilation of best practices & lessons learned: Coordination underway with IRENA to integrate objectives/features of platform in new version of “IRENA’s SUSTAINABLE ENERGY MARKETPLACE” web site – An introductory presentation of the Marketplace is included in the agenda of this Workshop

f) End-of-project workshop to bring together officials & selected project developers from the 2 regions along with major domestic & foreign investors: November 2017 (Beirut, Lebanon)

DA Project Advisory Board:
(Distinguished experts: 6 Members)

Accompany the project activities, provide feedback on outputs / strategic insights to project developers
UN Development Account Project
Regional Workshop on: “Developing a Regional Renewable Energy Investment Pipeline”, 13 June 2017

Jointly organized by ESCWA and UNECE in Astana – Kazakhstan / Framework of the Ministerial Conference and 8th International Forum on Energy for Sustainable Development

Objectives:
focus on the following:

✓ Providing knowledge on RE investment projects that project developers and relevant country officials should deal with: Technical / regulatory & policy requirements

✓ Facilitating a discussion between project developers with relevant stakeholders and experts in order to finalize their proposals / explore potential financing avenues
UN Development Account Project
Regional Workshop on: “Developing a Regional Renewable Energy Investment Pipeline”, 13 June 2017

Topics of the Workshop:

- Presentation of the global technical-economic trends for RE technologies.
- Presentation of ESCWA and UN ECE Project Development Portfolios, and panel discussions about issues that need to be addressed
- Introduction to the IRENA Marketplace
- Presentation of the regulatory and policy requirements for promoting RE investments: Adopted frameworks in selected ESCWA and ECE MC.

Some of the questions to be addressed:

- What are the impacts of the global technical-economic trends of RE technologies on RE investments in developing countries?
- What are key regulatory & policy options that can promote RE investments in both ESCWA and ECE Member countries?
- How can the project proposals developed in the RE portfolio for both ESCWA and ECE regions evolve into bankable projects?
THANK YOU FOR YOUR ATTENTION
