REGIONAL FORA are a platform for exchange for VNR countries

HOW TO
- align national & subregional development plans
- strengthen interministerial coordination
- engage stakeholders
- facilitate peer learning and partnerships
- localize SDG targets & indicators in an inclusive manner

PANEL OF 2016 / 2017 VNR COUNTRIES

- Collect, manage, validate disaggregated data in inclusive & effective way
- Build statistical capacity for VNR reporting

→ (Sub)regional cooperation plays a pivotal role for capacity building
VII. Support for VNRs: VNR Learning Café’

- Most vulnerable groups to exclusion
- Role of media in creating awareness
- Cross-sector communication
- Inclusion in high-level meetings
- CSOs key to SDG implementation

Example: sustainability in China-India tea trade to achieve SDGs

Role of startups in transferring environmentally sound technologies

- Data collection & sharing should be transparent
- Benchmarking is essential when preparing VNRs
- Share best practice & innovative solutions to achieve ambitious targets
- Language as a barrier for awareness & implementation
- Targets must be localized to fit national context
VIII. Lessons learned for regional cooperation

**REGIONAL**
- Cooperation is crucial to tackling cross-border issues
- Cooperation is an opportunity for peer learning & exchange of good practices
- Fora are key platforms to identify priorities, challenges, joint action
- Road maps can strengthen cooperation & support

**CHALLENGES REMAIN**
- Data issues and localization of indicators
- Interministerial cooperation, leadership & stakeholder engagement
