VNRs – A means of implementation of the 2030 Agenda (?)

„Mini Solutions“ for a Second Cycle of VNRs

Thomas Wollnik, Partners for Review | October 11th, 2019
VNRs - the mirror for national commitment to the 2030 Agenda and the SDGs
2030 Agenda = Transformation
Transformation = Change
Change = Doing things differently
VNRs = Reviewing on doing things (differently) and reporting on change
VNR 2.0 (mini solutions)

Follow-up and Review architecture is a gearbox

- (Self-) Assessment of „VNR reporting architecture“ (e.g. via SAIs, Governance Readiness Report)
- (Self-) Assessment of VNR process after HLPF as immediate follow-up as lessons learnt for 2. timer
- The „people“ are missing in the gearbox – low awareness about SDGs and VNRs. Integration of Media
- **Data Challenge**: Not to leave the statistical offices alone – for filling the „data gaps“ – think Data Ecosystem – it is not just a technical problem
- Establishing **Review structures beyond VNR purpose** – (using VNR as an engine for creating a rhythm) – also to lower „multiple reporting burden“
- Integration of **Costing-/Budgeting-/Finance** Expertise in Follow-up and Review processes and into VNRs
- Integration of **Parliament** (because of different roles: Accountability, Budget Approval, Awareness, Localization)
