### Remark on participation in JODI activities

Second JODI workshop

### Remark on timeliness

Data only up to December 2015

# Country: Equatorial Guinea

## Data

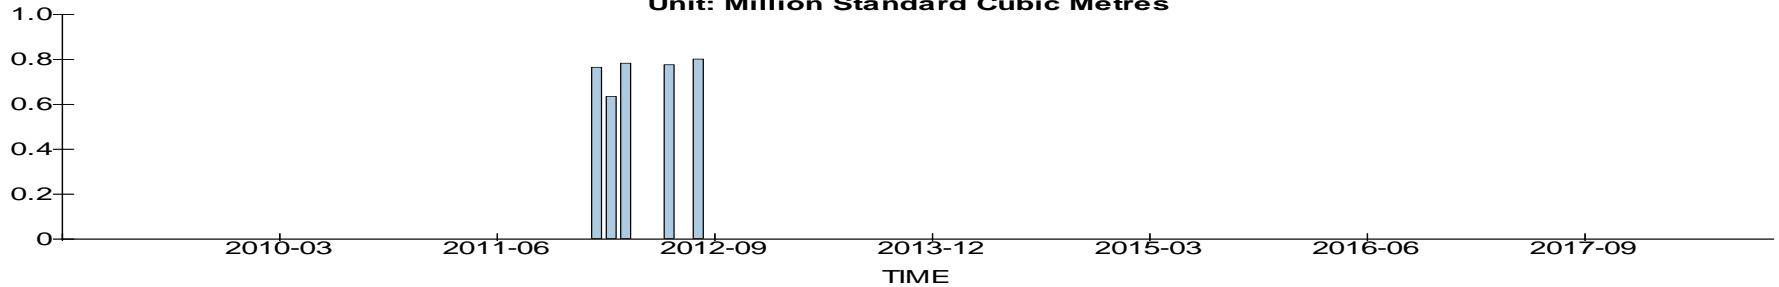

**Observations:** Difference between Calculated and Observed Inland Deliveries

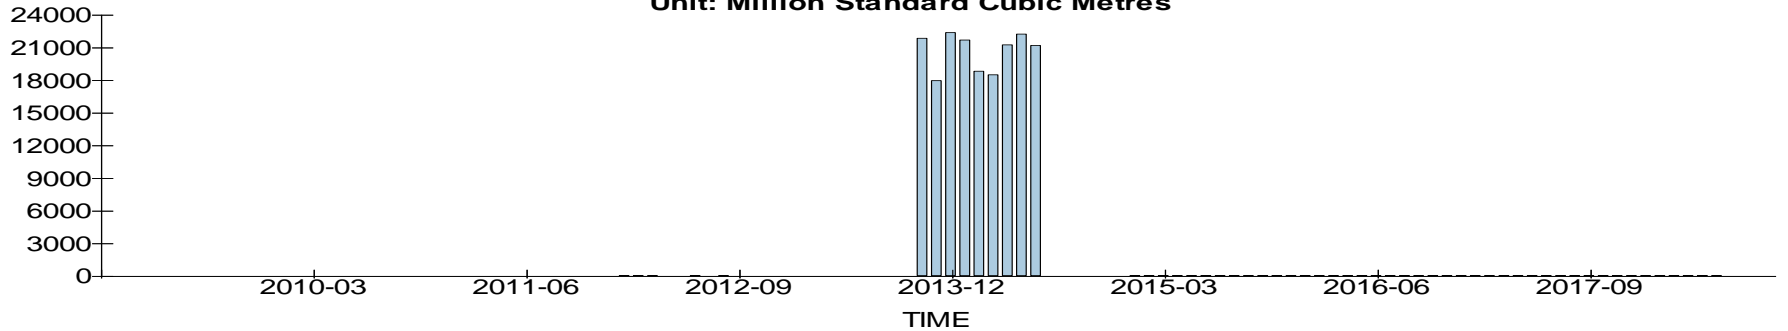

# Country: Equatorial Guinea Data

Country: Equatorial Guinea  
Product: Natural Gas  
BALANCE: Exports  
Unit: Million Standard Cubic Metres

Country: Equatorial Guinea  
Product: Natural Gas  
BALANCE: LNG  
Unit: Million Standard Cubic Metres

**Observations:** Export data is discordant with LNG data

# Country: Iraq

## Participation status

### Participation assessment

	Janurary -June 2018			July -December 2017			January -June 2017		
Iraq									

### Remark on Completeness

Is there any trade or storage in your country or for that matter any in land deliveries?

# Country: Iraq

## Data

**Observations:** Some opportunities for filling gaps with historical data

# Country: Jordan

## Participation status

---

### **Participation assessment**

No participation in JODI-Gas data reporting

### **Remark on participation in JODI activities**

No prior participation in workshop

# Country: Kuwait

## Participation status

---

### Participation assessment

	January -June 2018	July -December 2017	January -June 2017
Kuwait	  	  	  

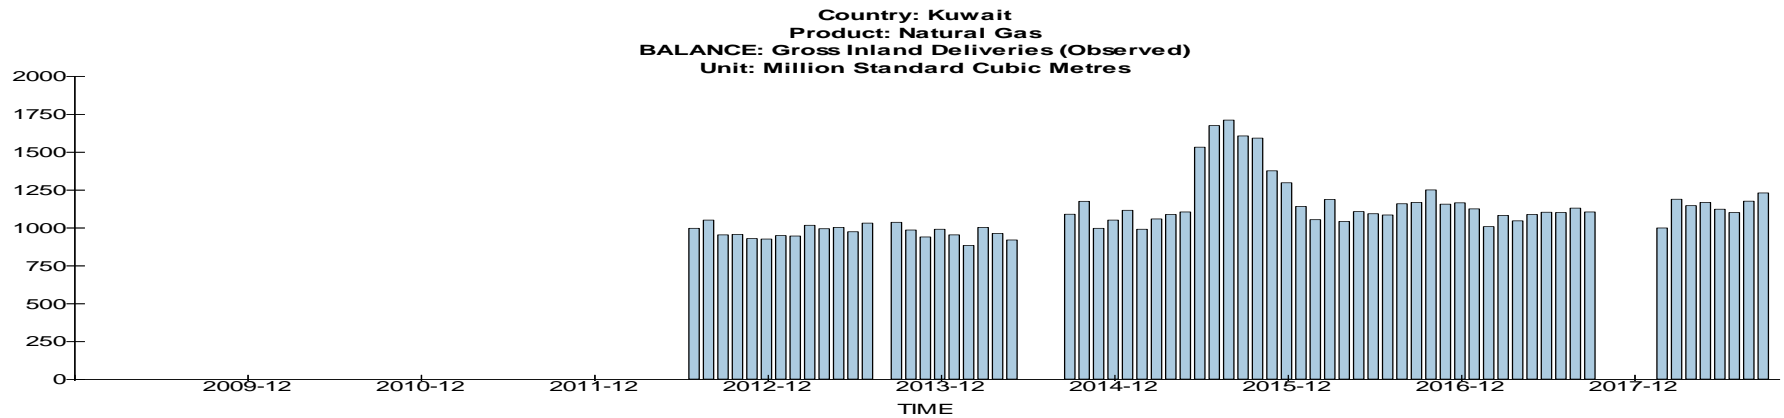

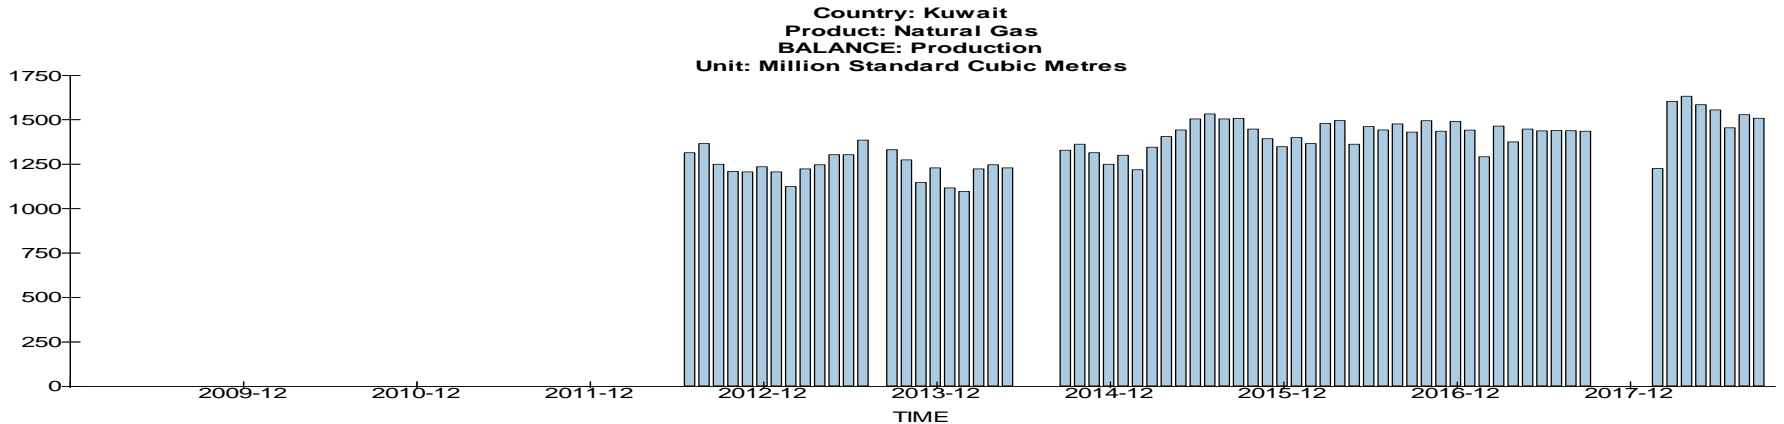

### Remark on Timeliness

Recent timeliness has reduced

### Remark on Completeness

No submissions for inland deliveries  
Comprehensive LNG data

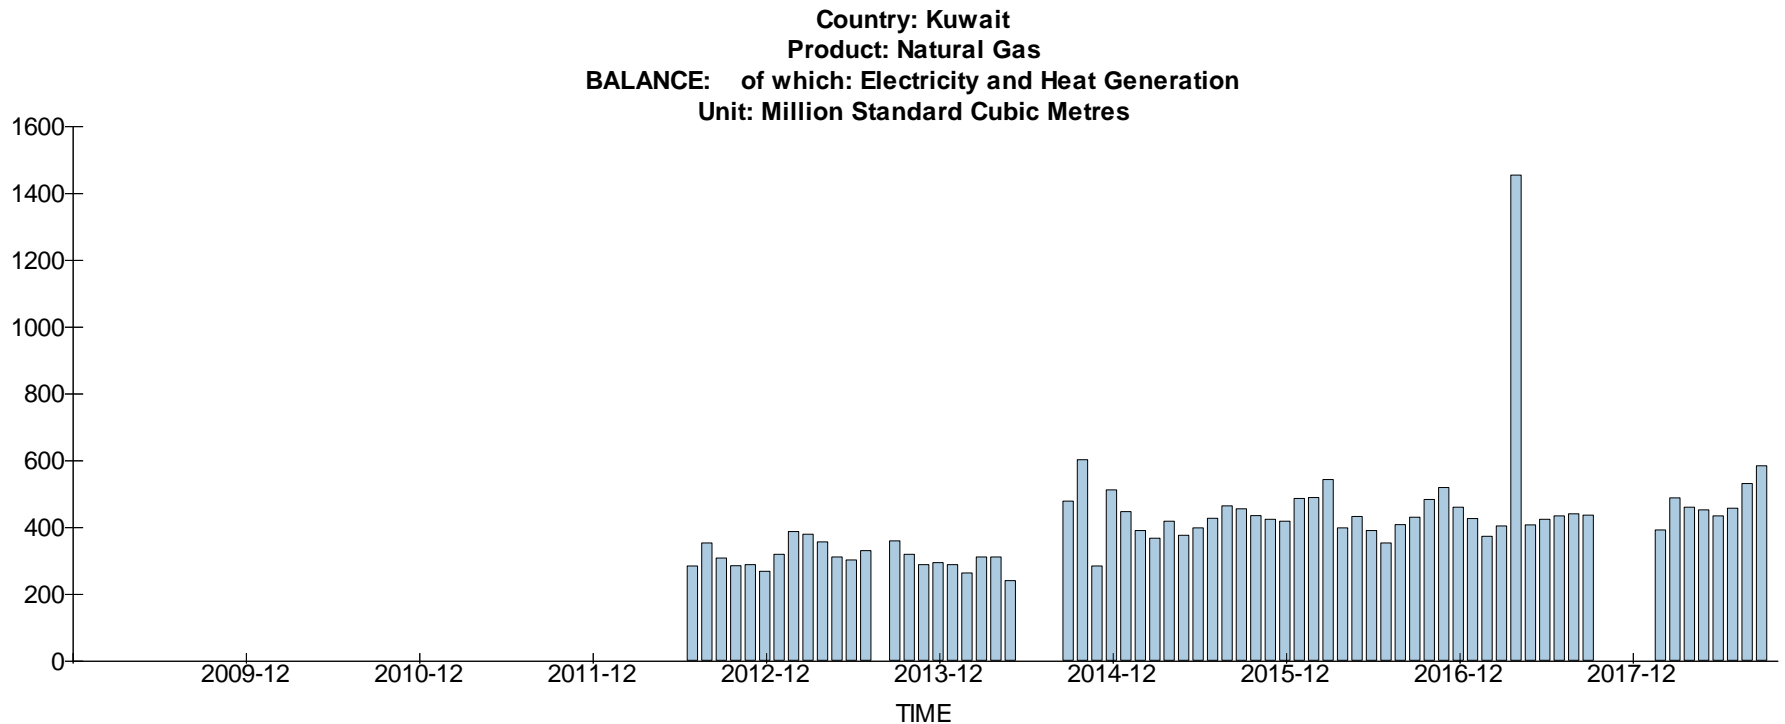

# Country: Kuwait Data

**Observations:** Historical data for Production and Inland deliveries could be improved.

# Country: Kuwait

## Data

**Observations:** large spike in heat and power generation in 2017-04

# Country: Lebanon

## Participation status

---

### **Participation assessment**

No participation in JODI-Gas data reporting

### **Remark on participation in JODI activities**

First participation in JODI Training Workshop

# Country: Libya

### Remark on Completeness

Last Data submitted was on May 2015

When data was submitted it was relatively Complete,  
Timely and Sustained

# Country: Oman

## Data

**Observations:** before May 2015 most data points were consistently submitted

# Country: Palestine

## Participation Assessment

---

### **Participation assessment**

No participation in JODI-Gas data reporting

### **Remark on participation in JODI activities**

First participation in JODI Training Workshop

# Country: Qatar

## Participation status

---

### Participation assessment

	January -June 2018			July -December 2017			January -June 2017		
Qatar									

### Remark on Completeness

Historical data revision and submission of Export (given that Pipeline and LNG is already submitted) would improve Completeness

# Country: Qatar

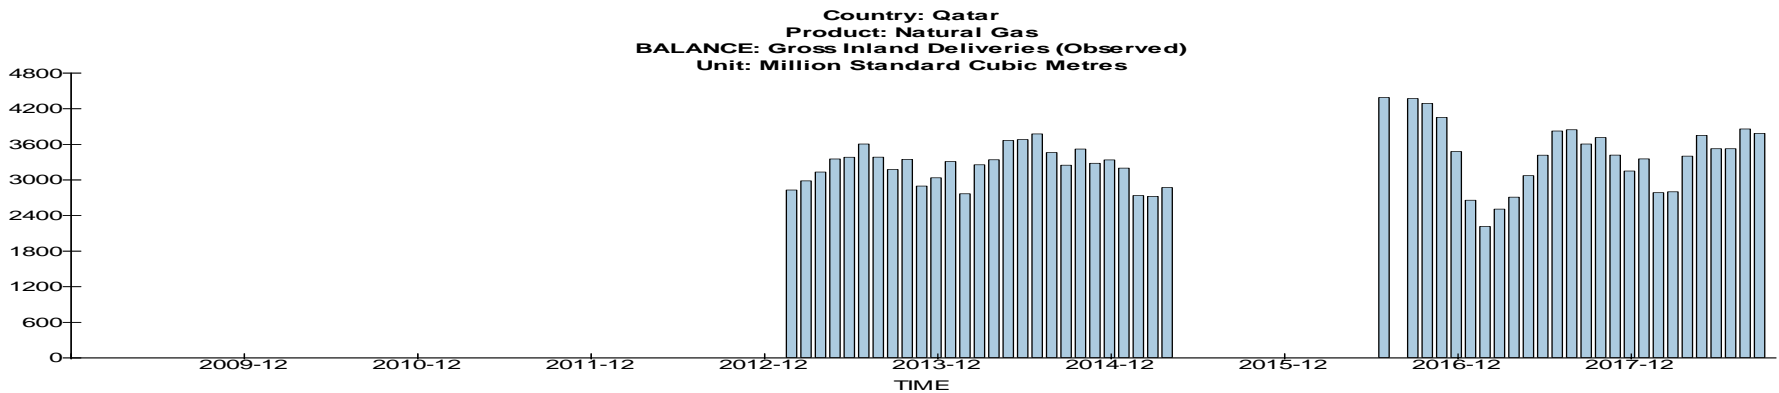

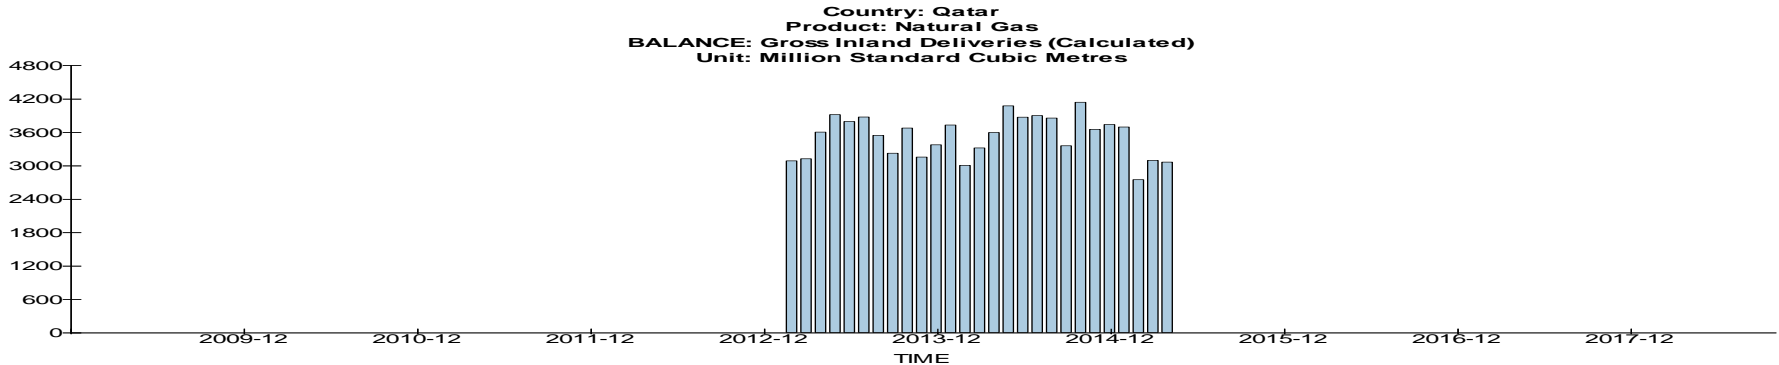

## Data

**Observations:** Large gap in LNG data leave room for historical data

# Country: Qatar

## Data

**Observations:** No recent submission of (Calculated) inland deliveries, with (observed) data showing more sustainability, particularly recently.

# Country: Saudi Arabia

## Participation status

---

### **Participation assessment**

No participation in JODI-Gas data reporting

### **Remark on participation in JODI activities**

No Prior Attendance

# Country: Sudan

## Participation status

---

### **Participation assessment**

No participation in JODI-Gas data reporting

### **Remark on participation in JODI activities**

Attend

# Country: Syria
