Acknowledgments

The third issue of this publication (2013-14) would not have been possible without the dissemination of gender statistics from various international agencies, and the diligence of compiling and creativity in presenting relevant Arab gender issues by the Gender Statistics Team led by Ms. Neda Jafar, Head, Statistical Policies and Coordination Unit in the Statistics Division of the Economic and Social Commission for Western Asia, and assisted by Ms. Dina Karanouh and Ms. Hiba Naccache.
